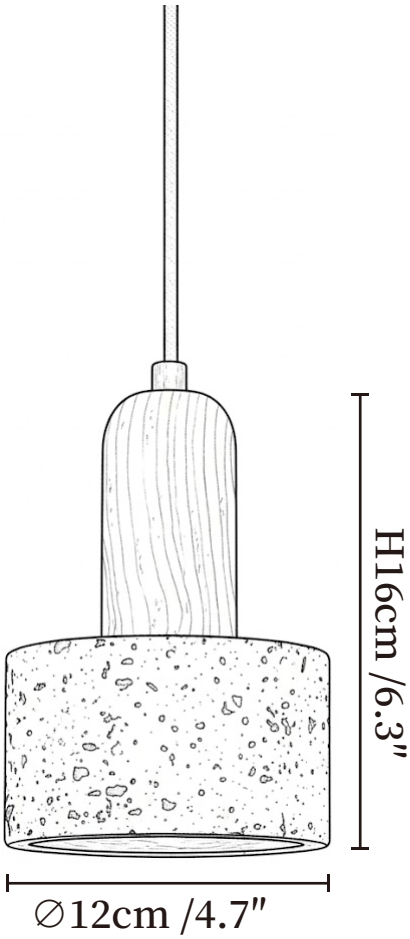
Duality Pendant Lamp

SPECIFICATION SHEET



DESCRIPTION

Unveil a new dimension of lighting with the Cosma Ring Pendant. This strikingly modern fixture is a celebration of contrasting textures and forms. Its core features a cylindrical design, crafted from a "black hole stone"-inspired material, characterized by a deep, dark hue and a subtly rugged surface that captures and plays with light. Nestled harmoniously around its center is a warm, richly toned wooden band, acting as a natural embrace that softens the industrial edge of the stone. Suspended by a sleek black cord, the Cosma Ring emits a soft, inviting glow, making it an ideal choice for creating intimate ambiance over kitchen islands, dining tables, or in sophisticated commercial spaces. It' s a bold statement piece, symbolizing the elegant interplay between the cosmic unknown and grounded, natural beauty.
