

Kozo Paper Metal Pendant Lamp

SPECIFICATION SHEET

DESCRIPTION

Two E26/E27 bulbs are cradled inside a large mulberry paper shade built on a metal internal armature — the frame providing structural precision while the Kozo paper diffuses both light sources into a single, seamless warm glow. At Ø 47 cm and H 82 cm, the form is generous enough to anchor a dining table or living room on its own, yet the paper construction keeps the visual weight close to zero. A hardwired ceiling pendant inspired by the Japanese paper lantern tradition and the mid-century modernist study of light as material.
