

Noctambule

Table & Floor Lamp

This Noctambule futuristic lighting system that blends innovation, efficiency, and aesthetics. Its transparent hand-blown glass cylinder is surrounded by discrete LED technology on top and at the bottom, thus making the foundation of the lamp stylish and stunning. The user can attach additional components to the fixture in order to experiment with different styles of lighting. This helps create columns of light at varying heights that light up at the intersecting points between each module or unit.
