

Caldera Travertine Table Lamp

SPECIFICATION SHEET

DESCRIPTION

Caldera is a compact transitional table lamp built around a solid travertine base — two stacked stone columns whose natural pores and warm beige veining read differently on every piece. The tapered shade is sewn from a cotton-linen blend that softens the bulb's glow into an even, library-warm pool of light.

Sized for nightstands, console tables, and reading desks at 30 cm x 36 cm tall (about 12 x 14 inches). E26 socket on a plug-in cord — no electrician needed. Bulb sold separately. The travertine base is heavy enough to anchor the lamp securely in everyday use.

SPECIFICATION DETAILS
