

Crater Backlit Wall Sconce

SPECIFICATION SHEET

DESCRIPTION

The 'Crater' Backlit Wall Sconce by Vakkerlight is a dramatic fixture designed for modern, texture-focused interiors. It features a bold circular, porous black disc that evokes the raw texture of lava stone, contrasted sharply with a bright, central opal glass sphere for soft, even illumination. Engineered for user convenience, the sconce includes a functional pull-chain switch, making it an ideal and easy-to-use choice for bedside task lighting, intimate living room accents, or statement hallway installations. Vakkerlight delivers a piece where rugged, organic texture meets refined, contemporary form.
