

Dial Travertine Sconce

SPECIFICATION SHEET

DESCRIPTION

A dial travertine sconce — a small 4.7" round natural-travertine disc with slim brass-and-wood pointers arranged like a watch dial, lit by an E27 bulb. The pointers are a decorative motif, not a working clock. A petite accent light for a hallway, bedside, or a grouping on a gallery wall. Travertine, E27 base, bulb included.
