

Flamingos Floor Lamp

SPECIFICATION SHEET

DESCRIPTION

The Lumina Pillar Orb is an avant-garde fusion of materials and design, bringing an artistic statement to any room it graces. Anchored by a base of pristine, veined marble, the lamp asserts its presence with an organic elegance. Rising from this natural pedestal is a slender shaft of golden metal that evokes a sense of vertical harmony. Capping this symphony of textures is a milky glass sphere, diffusing light into a soft, ambient glow that captures the gentle essence of dawn.

Each Lumina Pillar Orb is a unique dialogue between the robustness of earth-hewn marble and the delicate balance of light, a true centerpiece for those who appreciate the melding of natural beauty with human craftsmanship. It is not just a source of illumination but a piece of sculptural art that converses with the space around it.
