

Event Horizon Sconce

SPECIFICATION SHEET

DESCRIPTION

Drawing inspiration from the enigmatic allure of cosmic phenomena, the Event Horizon Pendant Sconce is a sophisticated wall-mounted fixture that offers both direct and ambient light. Its distinctive design features a suspended cylindrical shade, where a central band of rich Walnut wood elegantly contrasts with the textured Obsidian Black Stone elements above and below. This "black hole stone" effect creates a visually intriguing depth, hinting at hidden light within. Mounted on a matching Walnut wood base with a sleek black arm, this sconce casts a focused, warm glow downward while softly illuminating its surroundings. Ideal for adding a touch of modern drama and natural elegance to hallways, bedside tables, or reading nooks.
